

## Its Time to Start Using Your Words (The Transition Times Series)

Young children accustomed to expressing themselves with tantrums, gestures, or simple silence need to learn that using their words is the best way to make their thoughts and feelings heard. This book helps kids learn to say please and thank you and express themselves in productive ways. Its Time to Start Using Your Words is written by child psychologist Lawrence Shapiro and includes language development information and advice for parents. Reading this book at storytime is a great way to encourage your child to communicate with words and leave crying and shyness behind.
