

First Flight: The Story of Tom Tate and the Wright Brothers (I Can Read Chapter Books)

Around Kitty Hawk, Tom Tate was known for telling tall tales. But not even one of his stories could top the claim of Orville and Wilbur Wright, who said they came to Kitty Hawk to build a flying machine. Their plan sounded crazy to some folks, but Tom believed the brothers. He watched them testing their inventions and hoped that someday theyd send him up. Based on the true story of the first boy -- and the second person ever -- to fly at Kitty Hawk, this account of the creation of the worlds first airplane, beautifully rendered in Don Bologneses illustrations, will leave beginning readers imaginations soaring.
